FOUR TABLES of ACCOMPTS ready cast up.

The First, Shewing from One Pound to an 100 Pound by the Year, what it amounts unto by the Day, Week, Month, Quarter, and Half-Year.
The Second, Sheweth from One Farthing to Twenty Shillings by the Day, what it amounts unto by the Week, Month, Quarter, and Year.
The Third, Shews the Simple Interest of any Sum of Money, from 20 Shillings to a 1000 l. for either 1, 2, 3, 6, 9 Months, or a Year, at 6 l. per Cent. The Fourth, Shews what any Free-Land, or Leases of Houses, for any number of Years, is worth in ready Money.

By WILLIAM LEYBOURNE *Philom.*

An Explanation of the first Table.

THE first Table consisteth of three parts, each part containing Ten Rows or Columns; the first is of *Single Pounds* by the Year, beginning at One Pound, and so on, 2 *l.* 3 *l.* 4 *l.* &c. to 9 *l.* by the year. --- The second Part is *Tens of Pounds*, beginning with 10 *l.* and so on 20 *l.* 30 *l.* 40 *l.* &c. to 90 *l.* by the year. -- The third part is of *Hundreds of Pounds*, beginning at 100 *l.* & so on 200 *l.* 300 *l.* &c. to 900 *l.* by the year.

In the first Row or Column of either of these three parts, that towards the left hand, hath in the uppermost lines thereof these words *Pounds by the Year*, in the next line under *Half Year*, and in the next *Quarter of a Year*. Then under these you have 12. 11. 10. 9. 8. 7. 6. 5, 4. 3. 2. 1. Which are *Weeks* -- And in the last Line you have, *By the Day*. And this Distinction is used in all the three parts of the Table. Thus for the Description: now for

The Use of the first Table.

I shall explain the use of this Table by these few *Questions* following, although infinite might be proposed.

Quest. 1. *If I spend 7 l. in the year, how much is that in 9 Weeks.*

Look in the first part of the Table (because your Sum is under 10 *l.*) at the head thereof, for 7 *l.* which you shall find in the Eighth Column, then look down that Row or Column till you come to that Line which standeth against 9 Weeks in the first Column, and in that Line you shall find 1 *l.* 4 *s.* 2 *d.* 2 *q* and so much do you spend in 9 Weeks.

Likewise if you would know how much it is [illegible] weeks, it is 1 *l.* 1 *s.* 10 *d.* 2 *q* and in one Week 2 *s.* 7 *d.* 2 *q.* and in one day 4 *d.* 1 *q.* ¼ Farthing.

Quest. 2. *If I have an Annuity of 30 l. a year, to receive the same by monthly payments - how much must I ---- every Month?*

Look in the second part of the Table for 30 *l.* which you shall find in the fourth Column, then look down that Column till you come against 4 Weeks, (which is a Month) in the first Column, & in that line you shal find 2 *l.* 6 *s.* 1 *d.* 2 *q* and so much must you receive every four Weeks.

Quest. 3. *If I design to spend in House-keeping a 100 l. a year, how much must I deposit weekly to make up that Sum?*

Look in the Table for a 100 *l.* at the top, which you will find in the second Column, and in that Line of that Column, which standeth against 1 Week, you shall find 1 *l.* 18 *s.* 5 *d.* 1 *q.* and so much weekly will make up a 100 *l.* at the years end.

Quest. 4. *If I spend 384 l. a year, how much do I spend in 6 Weeks.*

In your Table you cannot find 384 *l.* in one Sum, therefore you must enter the Table in 3 places; first you shall find that 300 *l.* a year in 6 Weeks is 34 *l.* 12 *s.* 3 *d.* 2 *q.* and 80 *l.* a year in 6 Weeks, is 9 *l.* 4 *s.* 7 *d.* 1 *q.* and 4 *l.* a year in 6 Weeks is 9 *s.* 2 *d.* all which added together, as here you see done, amounteth to 44 *l.* 6 *s.* 0 *d.* 3 *q.* and so much do you spend in 6 Weeks.

l.		*l.*	*s.*	*d.*	*q*
300	} a year is in 6 weeks	34	12	3	2
80		9	4	7	1
4		0	9	2	0
	In all	44	6	0	3

Quest. 5. *If I earne by my Labour or have otherwise allowed me* 1*s.* 7 *d.* 3 *q a day, how much is that a Week, a Month, a Quarter, and a Year?*

Look along your Table in that Line which hath *By the day* written in it, till you find your Sum 1 *s.* 7 *d.* 3 *q.* and casting your Eye along, you shall find it to stand in the last Line of the fourth Column, of the second part of your Table, at the head whereof you shall find 30 *l.* and so much it is a year, and also in the same Column you shall find that it is 7 *l.* 10 *s.* by the Quarter, 2 *l.* 6 *s.* 1 *d.* 2 *q* by the Month, and 11 *s.* 6 *d.* by the Week.

Quest. 6. *If I am to receive for Money out 40 l. a year for Interest, and a Man brings me 3 l. 16 s. 11 d. in part. I demand for what time that Money will satisfie for Interest?*

Look in your Table for 40 *l.* at the head thereof, and seek in that Column for 3 *l.* 16 *s.* 11 *d.* which you shall find to stand against 5 Weeks in the first Column, and for so long time will the 3 *l.* 16 *s.* 11 *d.* discharge the Interest of the money out.

Many other Questions might be proposed which may be answered by this Table, but he that can do these here proposed may frame many more, and apply the Table to almost what use he pleaseth, either in Buying or Selling, &c.

The Sincere Man's Supplication.

Excess of *Wealth*, (Great powerful God!)
I do not wish to see;
Extreme of *Want*, and *Poverty*,
Inflict not (Lord) on me:
Since that the one *Exalts* too high,
The other brings *too low*;
A *Mean* therefore for *Nature's* need,
Great King of Kings bestow.

A Table shewing the Interest of any Sums of Money from One Pound to a Thousand Pound, for 1, 2, 3, 6, 9 Months, and a Year, at 6 per Cent.

The Explanation of the second Table.

THis Table consisteth of Five Rows or Columns; in the first thereof, there is from One *Farthing* to One *Peny*; then from one *Peny* to one *Shilling*; and from one *Shilling* to Twenty *Shillings*, or one *Pound*, by the day--- Then in the 4 other Columns you have at so much a day, what by the *Week*, *Month*, *Quarter*, and *Year*.

The Use of this Table.

Question 1. *At one Farthing a Day how much is that a Week, a Month, a Quarter, and a Year.*

Look in the first Column for one Farthing, and right against it in the second, you shall find 1 *d.* 3 *q.* and so much a Farthing a day is by the Week. In the third Column you shall find 7 *d.* and so much it is a Month, ---- In the fourth you shall find 1 *s.* 10 *d.* 3 *q.* so much it is by the Quarter---- and in the last Column you shall find 7 *s.* 7 *d.* 1 *q* and so much is one Farthing by the day at the years end.

Two useful and necessary Tables, the first shewing the true worth of Freehold-Land; and the other the Worth of the Lease of any Houses, for any number of years under 100.

First Table For the Purchase of Freehold-Land.			*Second Table For the Purchase of Leases of houses.*		
	year.	*mo.*		*year.*	*mo.*
